

## Communication and Barrier Removal Prework and Reflection Questions

The document provides reflection questions to support District Coordinators when viewing recorded modules and completing pre-work prior to coaching support sessions.

### Recorded Modules

Consider each of these questions as you watch the pre-recorded modules.

1. What are the key components of a communication plan? How would having a written plan support effective communication?
2. What is a barrier removal process and how does it support implementation of MTSS?
3. Record any additional thoughts or questions you had based on your learning.

### Connection to the DCA

Access the District Capacity Assessment. Review the 2-point criteria for each of the items listed below. Make note of where your district is at with each of these items and any questions you might have related to the item.

Table 1. Connecting prework to DCA items

DCA Item	Current Level of Implementation (i.e., existing processes, procedures)	Questions
Item 10: District uses a communication plan		
Item 11: District uses a process for addressing internal barriers		
Item 12: District uses a process for reporting policy information to outside entities		

Michigan's MTSS Technical Assistance Center is funded by the Michigan Department of Education and the U.S. Department of Education, Office of Special Education Programs.
